

MINI PNEUMATIC PUMPSETS DOP 20

The distinctive feature of this mini pumpset, apart from the tank volume, is the installed vacuum generator.

The vacuum generator of the PVP... MDX ES range, in fact, is equipped with an energy saving device which allows automatically maintaining the preset vacuum level inside the tank. The other accessories, except for the vacuum switch and the pneumatic activation valve for the vacuum generator supply, are the same as those installed on DOP 06 and DOP 10. They are used as the previously described mini pneumatic pumpsets.
